## **INDEPENDENT AUDITORS' REPORT**

Supervisory Committee  
Louisiana Corporate Credit Union  
Metairie, Louisiana

We have audited Louisiana Corporate Credit Union's (the "Credit Union") internal control over financial reporting, including controls over the preparation of regulatory financial statements in accordance with the instructions for the National Credit Union Administration (NCUA) 5310 – Corporate Credit Union Call Report, as of December 31, 2017, based on criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

### **Management's Responsibility for Internal Control over Financial Reporting**

Management is responsible for designing, implementing and maintaining effective internal control over financial reporting, and for its assessment about the effectiveness of internal control over financial reporting included in the accompanying Management Report Regarding Statement of Management's Responsibilities, Compliance with Designated Laws and Regulations, and Management's Assessment of Internal Control over Financial Reporting.

### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Credit Union's internal control over financial reporting based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the effective internal control over financial reporting was maintained in all material respects.

An audit of internal control over financial reporting involves performing procedures to obtain audit evidence about whether a material weakness exists. The procedures selected depend on the auditor's judgment; including the assessment of the risks that a material weakness exists. An audit includes obtaining an understanding of the internal control over financial reporting and testing and evaluating the design and operating effectiveness of internal control over financial reporting based on the assessed risk.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## **Definition and Inherent Limitations of Internal Control over Financial Reporting**

An institution's internal control over financial reporting is a process affected by those charged with governance, management and other personnel, designed to provide reasonable assurance regarding the preparation of reliable financial statements in accordance with accounting principles generally accepted in the United States of America. Because management's assessment and our audit were conducted to meet the reporting requirements of Section 704.15 of the NCUA Regulations, our audit of the Credit Union's internal control over financial reporting included controls over the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America and with the NCUA 5310 Call Report instructions. An institution's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of assets of the institution; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the institution are being made only in accordance with authorizations of management and those charged with governance; and (3) provide reasonable assurance regarding prevention, or timely detection and correction of unauthorized acquisition, use, or disposition of the institution's assets that could have a material effect on the financial statements.

Because of its inherent limitation, internal control over financial reporting may not prevent, or detect and correct, misstatements. Also, projections of any assessment of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Credit Union maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on criteria established in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

### **Other Matter**

We also have audited, in accordance with auditing standards generally accepted in the United States of America, the balance sheet and related statements of income, comprehensive income, changes in members' equity, and cash flows of the Credit Union and our report dated June 29, 2018 expressed an unmodified opinion.
